## FITTING INSTRUCTION

This towing hitch is designed to assembly in following cars: SUBARU FORESTER, produced since 2008, catalogue no. SU45A and is prepared to tow trailers max total weight $2000 \mathbf{k g}$ and max vertical mass 80 kg .

## From manufacturer

Thank you for buying our product. Their reliability has been confirmed in many tests. Reliability of towing hitch depends also on correct assembly and right operation. For this reasons we kindly ask to read carefully this instruction and apply to hints.

The towing hitch should be install in points described by a car producer.

## The instruction of the assembly

1. Disassemble the bumper with the metal reinforcement. The reinforcement will not be assembled again.
2. Fix loosely the main bar of the towing hitch (pos. 1) in places after dismounted reinforcement of the bumper (in points A). Use the original nuts.
3. Fix loosely elements (pos. 6 and 11) to the main bar (pos. 1) using bolts M10x80mm (pos. 14) as showed on the drawing. Use distance sleeves (pos. 8 and 9).
4. Slip side brackets (pos. 4 and 5) to chassis members through large holes of the bar's brackets and fix them from the bottom using bolts M10x35mm (pos. 15). Use distance sleeves (pos. 10) as showed on the drawing.
5. Fix side brackets with elements (pos. 6 and 11) using bolts M10x 35 mm (pos 15) and M10x25mm (pos. 16) as showed on the drawing.
6. Underneath the bumper, in its axis, cut out the fragment: the width 85 mm and depths 80 mm .
7. Install the bumper and fix body of the automat (pos. 12) and the socket plate (pos. 3) using bolts M12x25mm (pos. 13) from accessories. Place tow-ball (pos. 2) according to supplied instruction.
8. Tighten all bolts according to the torque shown in the table.
9. Connect electric wires of 7-poles socket according to the instruction of the car. (Recommend to make at authorized service station).
10. Complete paint layer damaged during installation.

## Towing hitch (without electrical set)

Class: A50-X Cat. no. SU45A Technical data:

Designed for:
Manufacturer: SUBARU
Model: FORESTER
produced since 2008
Approval number according to Directive 94/20/EC: $\underline{\text { e20*94/20*0699*00 }}$

## Foreword

This towing hitch is designed according to rules of safety traffic regulations. The towing hitch is a safety component and can be install only by qualified personnel. Any alteration or conversion of the towing hitch is prohibited and would lead to cancellation of design certification. Remove insulating compound and underseal from vehicle (if present) in the area of the matting surfaces of the towing hitch.
The vehicle manufacturer's specifications regarding trailer mass and max. vertical cup mass are decisive for driving whereat values for the towing hitch cannot be exceeded.
D-value formula:
$\frac{\text { Max trailer weight }[\mathrm{kg}] \quad \mathrm{x}}{\text { Max trailer weight }[\mathrm{kg}]+} \operatorname{Max}$ vehicle weight $[\mathrm{kg}]-\mathrm{Ma,81}=\mathrm{D}[\mathrm{kN}]$
